

6-8 Middle School Curriculums

Parents find our online middle school classes a great way to provide their child's middle school curriculum or to supplement what their child is learning at home by integrating one or more of our Middle School classes. This carefully designed interactive curriculum allows parents the flexibility to plan an academic program for their child that is custom-tailored to meet their educational needs. Middle school students can also enroll in a number of world language classes to round out any home school curriculum.

High School – Full-time and Part-time

Christina International High School offers students the opportunity to take one or more classes online following an engaging and interactive online curriculum. These core subject and elective courses are self-paced providing the flexibility to make up lost credits or enrich a traditional curriculum.

Full-time students may graduate from CIHS following a 24-credit College Prep Track or they may choose from our 18-credit Business, Web Design or Programming Tracks. Christina International High School follows a "block" schedule, which allows students to complete each course in one 18-week semester. With the block schedule, full-time students following an 18-credit track may graduate in 5 semesters and the 24-credit track in 6 semesters. Students may complete courses in less than 18-week semesters if desired.

AP & Credit Recovery

Christina International High School offers 20 AP classes approved by the College Board for Advanced Placement. In addition, CIHS offers more than 50 Credit Recovery classes that are diagnostic and self-paced, allowing for early completion. Students work on what they don't know, allowing for greater retention and focused study.

"Finish Now" - Diploma Recovery Program

Students that have completed high school but have not graduated are eligible to earn their diploma by transferring to Christina International High School and enrolling in our alternative high school graduation program. "Finish Now" provides students meeting CIHS graduation requirements with an opportunity to earn a CIHS diploma through credit review and the completion of a five-week online residency semester. Students needing to bring their grade up in a specific area will have the option of taking an independent study class or test-out based on the recommendations of the counseling staff.

"Welcome Back" Adult High School Completion Program

CIHS welcomes back all students that did not finish high school. Open to all adults eighteen years of age or older who left high school, this comprehensive program leads to a High School Equivalency Diploma (HSED). Enrolled students must complete a five-week semester that includes self-study, and online testing under proctored conditions. CIHS also offers a self-paced online GED Prep curriculum for those students needing to refresh their academic skills in the core test areas of math, science, language arts and social studies.

Fully Accredited National Private School Accreditation Alliance

At Christina International High School (CIHS) we make dreams come true. CIHS offers a complete online curriculum for students in grades 6-12 as well as adults needing to finish their high school education. As a nationally accredited school, our mission is to provide an engaging and safe online learning environment where each student can reach his or her full academic potential.

At CIHS education is centered on the individual student rather than the "one-size-fits-all" model of the traditional school system. Lessons are tailored to each student's needs, and customized and adapted as the student progresses. All the student needs is access to the Internet.

We offer over 200 quality courses that meet your state's standards. In addition to a full complement of core academic subjects, CIHS also offers a variety of elective courses, preparation for standardized state testing, exciting technology courses, business courses, and world language courses including Japanese and Mandarin Chinese.

And for those needing a little extra help with their language skills, CIHS has online ESL and ELL courses.

In addition, Christina International High School offers Advanced Placement (AP) courses and free SAT and ACT prep classes to all enrolled students as well as members of the armed forces and their dependents.

Our Commitment to Quality

At Christina International High School we are committed to providing each student a quality online education. What you can expect from us:
