21. No Waiver: Any waiver or a breach of any provision of this Agreement by the Landlord shall not operate or be construed as a waiver of any subsequent breach of that provision or of any other provision hereof.

22. Partial Invalidity: In case any one or more of the provisions contained in this Lease shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any

other provision of this Agreement and such invalid, illegal and unenforceable provision shall be reformed and construed so that it will be valid, legal, and enforceable to the maximum extent permitted by law. If any provision of this Lease is inapplicable to any person or circumstance, it shall nevertheless remain applicable to all other persons and circumstances.

23. Remedies and Defenses: Tenant may have remedies available at law or in equity. Any remedy available to the Landlord that may be set forth hereunder, is intended and shall be in addition to any other rights or remedies to which Landlord may be availed at law or in equity.

 - i. Treat the Lease as terminated, and retake possession for Landlord's own account;
 - ii. Sublease the Premises for the account of the Tenant, in which event the proceeds from subletting shall be applied first to the cost of subletting (including advertising and commissions), second, to the cost of repairing any damage to the Premises, and third, to the Tenant's rental obligations hereunder, with the Tenant and Guarantor(s) remaining fully responsible for any deficiency in the rental payments for the remainder of the Term; or

For purposes of this section, "good faith" in trying to re-lease the Premises means that Landlord shall use at least the same efforts to re-lease the Premises as Landlord uses in attempting to lease other similar property. It does not require Landlord to give a preference in leasing the Premises over other vacant properties that Landlord owns or has the responsibility to lease. Any advertising costs incurred by Landlord in an effort to re-lease the Premises will be billed to the Tenant's and considered Monthly Rent. Any and all Attorney's fees and court costs incurred by the Landlord through enforcement of this Lease will be assessed to the prevailing party in any lawsuit.

Alternatively, Tenants may vacate the portion of the Premise rendered unusable, in which case Tenants' liability for rent shall be reduced by the fair rental value of the portion of the Premise that is unusable. Notwithstanding the immediately foregoing, nothing contained in this Section or any act taken by the Landlord pursuant to this Section shall be interpreted or construed to relieve any Tenant from any liability (including any rent due and owing hereunder) occasioned by the breach by such Tenant or any other Tenant, of any duty, obligation or performance required of any Tenant under this Lease, or the acts or omissions (including without limitation, negligence or intentional malfeasance) of any Tenant or any other Authorized Person causing or contributing to any casualty or condition sustained by the Premises. All damages awarded for such taking shall belong to the Landlord.

Levels of radon that exceed federal and state guidelines have been found in buildings in Florida. Additional information regarding radon and radon testing may be obtained from your county health department."
- B. Lead Based paint and ACMs Notice – Housing built before 1978 may contain lead-based paint or traceable amounts of asbestos containing materials (ACMs). Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, Landlords must disclose the presence of known lead-based paint and/or lead-based paint hazards in the dwelling. Lessees must also receive a federally approved pamphlet on lead poisoning prevention. ACMs are generally found in original kitchen tiles, acoustical ceiling treatments, drywall and joint compound, and original sink undercoating. These areas of the dwelling should not be disturbed and any maintenance issues relating to these areas should be referred to the Landlord.
- C. Mold Notice - Mold is found virtually everywhere in our environment-both indoors and outdoors and in both new and old structures. Mold spores (like plant pollen) spread through the air and are commonly transported by shoes, clothing and other materials. When excess moisture is present inside a dwelling, mold can grow. There is conflicting scientific evidence as to what constitutes a sufficient accumulation of mold which could lead to adverse health effects. Nonetheless, appropriate precautions need to be taken.

In order to minimize the potential for mold growth in your dwelling, you must do the following:

- I. Keep your *dwelling clean* – particularly the kitchen, the bathrooms(s), carpets and floors. Regular vacuuming, mopping and using a household cleaner to clean hard surfaces is important to remove the household dirt and debris that harbor mold or food for mold. Immediately throw away moldy food.
- II. *Remove visible moisture accumulation on windows, walls, ceilings, floors and other surfaces as soon as reasonable possible.* Look for leaks in washing machine hoses and discharge lines – especially if the leak is large enough for water to infiltrate into nearby walls. When showering, be sure to keep the shower curtain inside the tub

or fully close the shower doors. Also, the experts recommend that after taking a shower or bath you: (1) wipe moisture off the shower walls, shower doors, the bathtub and the bathroom floor; (2) leave the bathroom door open until all moisture on the mirrors and bathroom walls and tiles surfaces dissipated; and (3) hang up your towels and bath mats so they will completely dry out. Turn on any exhaust fans in the bathroom and kitchen before you start showering or cooking with open pots.

III. Promptly notify us in writing about any air conditioning or heating system problems you discover. Follow our rules, if any, regarding replacement air filters. Also, it is recommended that you periodically open windows and doors on days when the outdoor weather is dry (i.e. humidity is below 50 percent) to help humid areas of your dwelling dry out.

IV. Promptly notify us in writing about any signs of water leaks, water infiltration or mold. We will respond in accordance with state law and the Lease Contract to repair or remedy the situation, as necessary.

IN ORDER TO AVOID MOLD GROWTH, it is important to prevent excessive moisture buildup in your dwelling. Failure to promptly pay attention to leaks and moisture that might accumulate on dwelling surfaces or that might get inside walls or ceilings can encourage mold growth. Prolonged moisture can result from a wide variety of sources, such as:

- a) Rainwater leaking from roofs, windows, doors and outside walls, as well as floodwaters rising above floor level.
- b) Overflows from showers, bathtubs, toilets, lavatories, sinks. Washing, machines, dehumidifiers, refrigerator or a/c drip pans or clogged up a/c condensation lines;
- c) Leaks from plumbing lines or fixtures and leaks into walls from bad or missing grouting/caulking around showers, tubs or sinks;
- d) Washing machine hose leaks, plant-watering overflows, pet urine, cooking spills, beverage spills and steam from excessive open pot cooking.
- e) Leaks from clothes dryer discharge vents (which can put lots of moisture into the air); and insufficient drying of carpets, carpet pads, shower walls and bathroom floors.

COMPLIANCE: Complying with this notice will help prevent mold growth in your dwelling and both Tenants and Landlord will be able to respond correctly if problems develop that could lead to mold growth. **IF YOU FAIL TO COMPLY WITH THIS NOTICE, you can be held responsible for property damage to the dwelling and any health problems that may result.**
